Dark Celebration

HAUTE COUTURE COLLECTION

The **Dark Celebration** project lies between a fashion show and a performance designed to tell in a metaphorical way the genesis, the inspirations and the reflections which combined to shape the sharp traits of 12 looks making up the first models of the new SS2020 *Haute Couture* collection.

The runaway becomes a medium to narrate the past, favoring irregular characteristics and extreme visual effects. The show on stage possesses a theatrical and enthralling effect. The models move in an apparently random way to emphasize the dresses they are wearing and make them dynamic. They convey sensuality even if they are wearing strictly cut jackets.
